

Carbon Disclosure Project Reporting

IMPROVE YOUR CARBON DISCLOSURE PERFORMANCE WITH THE HELP OF IMS CONSULTING

- Are you submitting to the Carbon Disclosure Project (CDP) this year?
- Is it your first submission or one of many?
- Have you been going it alone and want some external support to improve your score?
- Have you had support from an external consultant but want to perform better?

WHEREVER YOU ARE ON YOUR JOURNEY, IMS CONSULTING CAN HELP YOU IMPROVE YOUR PERFORMANCE

As an Accredited Provider of the Carbon Disclosure Project (CDP), IMS Consulting helps clients with their CDP submissions, enabling them to improve their carbon disclosure performance, increase efficiency and reduce costs.

Combining over 20 years of expertise in climate change and carbon with proven communications skills, IMS Consulting will help you understand and prioritise your impact and actions, formulating your submission accordingly.

HOW WILL SUBMITTING TO CDP BENEFIT YOUR BUSINESS?

Companies that participate with the disclosure of key environmental data put themselves in a prime position to see a host of business benefits:

- Increased transparency to your stakeholders
- Identification of strategies for coping with climate change threats
- Highlighting of key business opportunities
- Ability to increase efficiency and reduce unnecessary costs.

WHAT IS THE CDP?

CDP is an international, not-for-profit organisation providing the only global system for companies and cities to measure, disclose, manage and share vital environmental information. For more information, go to www.cdproject.net

CDP represents 722 investors with assets of US\$ 87 trillion and over 3,000 companies, including 82% of the world's 500 largest businesses.

CDP has evolved significantly since it first began, and whilst carbon and climate change remain central, the Water and Forest programs are also now recognised as key areas of focus. If you're thinking of submitting to these programs, IMS Consulting can help.

Whether you're submitting to CDP for the first time this year or you have submitted in previous years and want to improve your score, take advantage of IMS Consulting's free one hour consultation. We can critique your previous submission, provide guidance on how it could be improved, or simply discuss the benefits of submitting for your organisation.

IMS Consulting specialises in providing expert advice and guidance to help organisations unlock their sustainability potential. If you're interested in the CDP, IMS Consulting can also help you to get more out of your sustainability communications, build two-way dialogue with your stakeholders and develop your sustainability strategy.

HOW IMS CONSULTING CAN HELP

1 We will review your previous year's submission, identify areas of weakness and conduct a health check with you, acting as a critical friend, not an auditor.

2 Together we agree areas of improvement.

3 We draft responses to all questions, based on interviews, information provided by you and the recommended approach developed by IMS Consulting, to ensure your submission provides the most appropriate response, based on the CDP scoring criteria.

4 We will write your submission, providing narrative for each of the questions.

5 We will then upload your responses to the CDP site following sign off.

MORGAN SINDALL GROUP

Morgan Sindall Group plc

In 2012, IMS Consulting worked closely with Morgan Sindall Group on its CDP submission, resulting in a score of 86 and a B rating, making it the highest scoring UK construction company. Although not in the FTSE 350, this score was so good that it qualified the Group for inclusion in the Carbon Disclosure Leadership Index (CDLI) – the only non-FTSE 350 company to ever achieve this.

SKANSKA

Skanska AB

For the third year running, IMS Consulting's client Skanska AB achieved the highest position for a construction company in the CDP Nordic 260 Climate Change Report 2012.
